Only 200 out of the 1,500 precincts in New breaks have been heard from on in the hour of going to press. So far as received these returns give the McKinley and Hobart electors over 1,000 plurality. If this majority is kept up the republican presidential ticket will carry the state by a small mar-

Not only does the count seem to be retarded by slow counting, but the total vote palled is much heavier than two years ago, when lie, od votes were cast in the gubernaturial election. Nearly every precinct heard from shows gains for both McKinley and Bryan over the vote for Majors and Hallomb in 1894 with which it must be compared. As usual the precincts first reported are those from the towns. So close is the contest that almost complete returns from all New braska counties will have to be had before a reliable statement of the approximate majority can be given.

The closeness of the vote on president indicates that the vote on the state ticket will also be close, as well as close contests for congress in three or four of the congressional districts.
